# Box Styles

We produce a range of rigid, collapsible and flat pack box options to suit a variety of uses.

## Rigid 2 piece box

Rigid boxes consist of a solid board that can be lined with a range of papers to create a strong and luxury looking box.

## Rigid box 2 piece box with lip

The same as the standard rigid box and lid but a lip is added to the bottom section.

## Collapsible box

A strong rigid box that is supplied flat-pack and therefore is a more economical option in terms of freight than a box and lid style.

## Rigid box with inner compartment

A rigid inner compartment with a folding lid. Often contains a magnetic closure.

# Box Styles

We produce a range of rigid, collapsible and flat pack box options to suit a variety of uses.

## Hinged box

A rigid box with a lid that opens on a hinge on the back edge. Ribbon can also be added to the side edges.

## Corrugated flat-pack box

A more economical option than the rigid box options that is also suitable to use as a mailing box.

## Rigid box with drawer

A rigid box that contains a slide out drawer. Can be supplied with a ribbon puller.

## Flat-pack cardboard box

Suitable for lighter garments and accessories for in-store display, they can feature a cut out area which can have a plastic transparent window if required.

# Box Sizes

We offer a range of standard sizes based on the box style, though we can also make to any custom size.

## Standard Sizes

For **rigid, collapsible** and **corrugated card** styles, we offer 3 standard box sizes.

### Large

42cm (L) . 33cm (W) . 17cm (H)

### Medium

30cm (L) . 24cm (W) . 8cm (H)

### Small

22cm (L) . 17cm (W) . 6cm (H)

For flat-pack cardboard boxes, we offer a standard size garment box and a standard size tie sleeve.

### Garment Box

18.5cm (L) . 14cm (W) . 4cm (H)

### Tie Sleeve

40cm (L) . 9.5cm (W)

## Custom Sizes

All our boxes can be made to your custom size, you just need to provide us with the length, width and height required.

L - Length  
W - Width  
H - Height

## Design Options

Whether you choose a standard size or a custom size, there are a number of ways you can personalise your design.

### Paper Qualities

We offer a wide range of paper qualities including standard boards and corrugated card for flat-pack boxes and more sturdy card and luxury papers for rigid & collapsible boxes.

### Colours

There are very few limitations in terms of design and we can print designs in full colour (4-colour process) or can print spot colours that are matched to Pantones.

### Additional Considerations

Depending on the style of box you choose, you may also want to consider additional design feature such as a transparent window, a hinged lid or a foam, plastic or paper insert.

### Processes

Additional to printing designs, we can also offer a range of additional eye-catching processes such as gloss & matt lamination, spot UV, foil blocking and embossing & debossing.

### Shape

Typically, the boxes we produce are square or rectangle shaped, but we can also make options such as hexagonal and tubular shaped boxes.

You now have all the tools to get designing your box packaging, but if you still have any questions, do not hesitate to get in touch. We look forward to hearing from you and seeing your designs.
