Style, Size & Material

We offer several rivet styles, produced in different materials depending on design and application.

Capped Rivet Style

Die-Cast Rivet Style

Nipple Rivet Style

Inverted Nipple Rivet Style

Size

Standard rivet sizes tend to be around 8-10mm diameter, but we can make to custom sizes.

Material

Brass

Brass is a thinner, lighter material and is most suitable where basic text designs are used.

Die-Cast Alloy

For more complex designs or where a thicker, stronger rivet is needed, die-cast alloy is a more appropriate option.

Logo Display

Further design elements allow you to customise your rivets to suit the application and appearance you require.

Debossed

Design is engraved into the surface of the button.

Embossed

Logo is raised up from the surface.

Laser Engraved

Design is lasered on to the surface of the button.

Colour Infill

Colour is added to engraved areas.

Epoxy Coating

A clear epoxy added over the face of the rivet.

Colour & Attachment

The colour of your jeans rivet is important for achieving a look that compliments your garment and brand.

Standard Finishes

Antique Brass, Pewter, Antique Copper....

Polished Finishes

Polished Nickel, Gunmetal, Gold...

Enamel & Rubber Finishes

Matched to any Pantone or swatch

Jeans rivets are supplied with an attaching nail and then be applied with a press machine.

We will supply a custom die-set to fit your press machine specifications.

You now have all the tools to get designing your jeans rivets, but if you still have any questions, do not hesitate to get in touch. We look forward to hearing from you and seeing your designs.
